Senior Full Stack Developer

Senior Full Stack Developer with 12+ years of experience specializing in modern web technologies, including React, Vue.js, Next.js, Tailwind, PHP, and Laravel. Adobe Certified Expert in Adobe Commerce Front-End, skilled in building high-performance software solutions that enhance user experience and drive business growth.

WORK EXPERIENCE

IronPlane • Portland, ME, USA 04/2023 – 10/2024, Senior Full Stack Developer

- Designed and implemented stores using React and Adobe Commerce.
- PWA Studio stores and bug fixes using Adobe Commerce, PWA Studio, React, webpack, GraphQL, HTML, CSS and Tailwind.

BlueAcorn ICI• Charleston, SC, USA 03/2021 – 02/2023, Senior Full Stack Developer

- Led a Front-end development team on a React and Adobe Commerce project, ensuring timely and high-quality delivery.
- Senior Full Stack Developer at Blue Acorn iCi, a leading company in award-winning digital transformations for Fortune 500 companies. I collaborated on large-scale projects, including creating digital experiences for renowned brands such as Apple and Sony.
- Development and enhancement of systems for renowned brands like Lovesac, using technologies such as React, Adobe Commerce, and advanced customization tools, such as product creation in a 3D environment.

MageMontreal• Sainte-Agathe /QC Canada 08/2020 – 02/2021 Senior Full Stack Developer

- Full Stack Developer at MageMontreal, contributing to the development using modern web technologies.
- Continuous Integration/Deployment Pipeline Integration, pull requests, code reviews.

Redstage • New York, NY, USA 03/2019 – 08/2020, Senior Full Stack Developer

- Creation of work automation scripts, proposing tasks such as branch creation, automatic status updates in Jira, pull request creation via terminal, and development of a webhook on GitHub to send automatic notifications to Slack.
- Development and enhancement systems using advanced tools like React, Adobe Commerce, Big commerce and Shopify.

KolinaLabs • Guarapuava, PR, Brazil 06/2018 – 02/2019, Senior Full Stack Developer

- Full Stack Developer at KolinaLabs, where I developed a solar panel system for Sices Brasil, enhancing operational efficiency and scalability within 6 months using Vue.js and Webpack.
- Creation and maintenance of apps using React, Vue.js, Webpack, Sass, among others, to ensure efficient and high-quality implementation.

- BI Developer, creating an advanced dashboard using QlikSense to enhance data analysis and decision-making at Sices Brasil.

Unimed • Guarapuava, PR, Brazil 08/2015 – 06/2018, Senior Full Stack Developer

- I developed approximately 12 systems using Laravel and React independently, including 2 large systems that continued to be used for over 6 years, even after my departure from the company.
- I was responsible for the entire system development process, from gathering requirements to development, deployment, testing, and support.
- I created a workflow system that automated all internal processes, providing greater ease of work for everyone.
- I conceptualized and developed a system that reduced an employee's workload time from 7 days to just 5 minutes, automating the compression and sending of multiple PDFs via email to health plan beneficiaries.
