- Adobe Certified Expert Adobe Commerce (Magento 2) | BigCommerce | Shopify
- Docker | Warden | Commerce Cloud | Frontend | Backend | Full-Stack | English, Portuguese

Experience

Senior Front-end Developer [IronPlane](#) *Portland, ME, USA* - 04/2023 - 10/2024

- Designed and implemented stores using Adobe Commerce.
- Upgrade PWA Studio stores and bug fixes using Adobe Commerce, PWA Studio, React, webpack, GraphQL, HTML, and CSS.
- Code-reviews in BigCommerce and Adobe Commerce stores.

Senior Front-end Developer [BlueAcorn ICI](#) *Charleston, SC, USA* - 03/2021 - 02/2023

- Led a Front-end development team on an Adobe Commerce project, ensuring timely and high-quality delivery.
- Senior Front-end Developer at Blue Acorn iCi, a leading company in award-winning digital transformations for Fortune 500 companies. I collaborated on large-scale projects, including creating digital experiences for renowned brands such as Apple and Sony.
- Development and enhancement of stores for renowned brands like Lovesac, using technologies such as Adobe Commerce, React, and advanced customization tools, such as product creation in a 3D environment.

Senior Front-end Developer [MageMontreal](#) *Sainte-Agathe*QC Canada* - 08/2020 - 02/2021

- Front-end Developer at MageMontreal, contributing to the development of multiple online stores using Adobe Commerce.
- Continuous Integration/Deployment Pipeline Integration, pull requests, code reviews.

Senior Front-end Developer [Redstage](#) *New York, NY, USA* - 03/2019 - 08/2020

- Initiated the creation of work automation scripts, proposing tasks such as branch creation, automatic status updates in Jira, pull request creation via terminal, and development of a webhook on GitHub to send automatic notifications to Slack.
- Full Stack Developer, responsible for the creation and updates of stores using Adobe Commerce.

Software Engineer [KolinaLabs](#) *Guarapuava, PR, Brazil* - 06/2018 - 02/2019

- Development of system applications, including a solar panel system for Sices Brasil, the largest solar panel producer in Latin America.
- Creation and maintenance of apps using Vue.js, webpack, Sass, among others, to ensure efficient and high-quality implementation.
- BI Developer, creating an advanced dashboard using QlikSense to enhance data analysis and decision-making at Sices Brasil.

Full Stack Systems Developer Analyst [Unimed](#) *Guarapuava, PR, Brazil* - 08/2015 - 06/2018

- Largest healthcare company in latin america, I developed approximately 12 systems using Laravel independently, including 2 large systems that continued to be used for over 6 years, even after my departure from the company.
- Responsible for the entire system development process, from gathering requirements to development, deployment, testing, and support.
- I created a workflow system that automated all internal processes, providing greater ease of work for everyone.
- I conceptualized and developed a system that reduced an employee's workload time from 2 months to just 1 minute, automating the compression and sending of multiple PDFs via email to health plan beneficiaries.
